Overview of TGD Resource Guide

The following resources focus on supporting Transgender and Gender Diverse (TGD) individuals and supportive allies. This Resource Guide is updated on a regular basis but keep in mind that federal laws and state laws change, website addresses change, resources are added and deleted, books go into new editions, and new resources are developed. The Guide is in no way meant to be an exhaustive list nor an endorsement of the resources listed, rather a source to highlight some of the most useful information available. Be sure to do your due diligence on resources of interest in this guide. The TGD Resource Guide cannot guarantee all resources continue to be gender-affirming.

Updates & Distribution of the TGD Resource Guide

The latest edition of the TGD Resource Guide may be found on the Watershed Coaching & Consultation Service page under “Resources” at the following link:

watershedservices.biz/resources

The TGD Resource Guide is meant to be distributed, so please share the link widely and let people know it is updated throughout the year.

Thank you.
